Use the transfer platform to enter into the giant blue octopus' head.
Take the built-in slide all the way down!

Drive along the arms and get to safety outside of the octopus' reach!

The swings are accessible from ground level and offer a swinging type of play component, as well as an element of roleplay: Imagine that your swinging in and out of safety with your friends!

The octopus arm offers different play experiences:
Drive your wheel chair all the way to the octopus arm, and hold on to the suckers to pull yourself up.
Run your hands over the octopus suckers and imagine that the octopus is about to grab you!
